

Name of entity | person that owns the invention \_\_\_\_\_  
described in attached invention manuscript. > \_\_\_\_\_

The information contained on this page and the attached invention manuscript is CONFIDENTIAL and PROPRIETARY to The named-entity (upper right-hand corner) and may **not** be disclosed to others (whether in writing, verbally, or visually) without prior written permission of the named-entity. The attached manuscript is a record of the invention. To obtain patent protection in a particular country, a patent application must be prepared & filed with a governmental Patent Office.

Name of each individual who contributed to the \_\_\_\_\_  
invention described in attached manuscript >> \_\_\_\_\_  
\_\_\_\_\_

Descriptive Title of the invention >> \_\_\_\_\_  
Name of internal company project or \_\_\_\_\_  
product, if any, to which it relates >> \_\_\_\_\_

When (date) was invention conceived or \_\_\_\_\_  
thought-of in detail (preserve records!)? >> \_\_\_\_\_

Has prototype been built? \_\_\_\_yes \_\_\_\_no If yes, enter date built >> \_\_\_\_\_  
Has prototype been tested? \_\_\_\_yes \_\_\_\_no If yes, enter date tested >> \_\_\_\_\_

Has any part of invention been described in \_\_\_\_\_  
Written publication? \_\_\_\_yes \_\_\_\_no If yes, give details > \_\_\_\_\_

Has any part of invention been offered for commercial sale or sold? \_\_\_\_\_  
Or, any plans to do so? \_\_\_\_yes \_\_\_\_no If yes, give details >> \_\_\_\_\_

Identify other lab notebooks or separate written \_\_\_\_\_  
manuscripts | records detailing this invention > \_\_\_\_\_

**GUIDE** for creating detailed manuscript of invention (physically or electronically attach to this cover-sheet, once signed)

- Part A** Identify problems solved by the invention.
- Part B** Identify prior solutions, if any, and their disadvantages (attach copies of granted patents, articles, web-links, etc)
- Part C** Describe the structure, construction | fabrication, and operation of invention (include schematic figures, block diagrams, data flow diagrams, flowcharts, graphics, photos, sketches); list alternative structures and materials.
- Part D** Identify advantages of your invention over that which has been tried and/or is already 'known'.

I(we) affirm that, to the best of my(our) knowledge and belief, this |nvention manuscript describes my(our) original ideas
